

# RIMAC's Contribution to the Sustainable Development Goals

2019 results

# 01 Introduction

On September 2015 the **United Nations adopted the 2030 Agenda for Sustainable Development as a call to action for people, the planet, prosperity, universal peace and access to justice through 17 goals and 169 integrated and indivisible targets.** These Sustainable Development Goals (SDGs) seek to close gaps and solve problems in economic, environmental, social and governance issues through joint action between the private sector, public sector (national and local government) and international cooperation.

In Peru, **the National Institute of Statistics and Informatics (INEI, by its Spanish acronym) is responsible for tracking and monitoring the progress of achievement of the 17 goals and 169 targets.** To fulfill its role, the information is available to public policies' decision makers, researchers, academics and the general public through the Sustainable Development Goals' Tracking and Monitoring System.

At RIMAC we maintain a long-term commitment to sustainable development through our sustainability strategy and our shared value approach. Consequently, we have identified how our strategy generates a positive impact on the following Sustainable Development Goals:

In the analysis of our contribution to the SDGs, we present our progress towards achieving the 2030 Agenda's targets.

# 01 Introduction

**Prevention** is the best insurance and the starting point in our journey towards a **more sustainable business**.

Our sustainability strategy is aligned with **RIMAC's purpose and business strategy, materiality analysis and Grupo BRECA's sustainability pillars.**

This strategy focuses on three fundamental pillars, supported by a **solid and recognized compliance and corporate governance management:**

**01 Insurance for everyone**

Our commitment is to offer more **Peruvians insurance and quality health services** aligned to their needs, with innovation as an important pillar.

**02 Protecting what matters**

We seek to generate a **culture of prevention** and to **promote the well-being** of Peruvian families, starting with our employees.

**03 Caring for tomorrow**

We promote **responsible environmental behavior** and disaster prevention practices.

# 02 Contribution

At RIMAC we make a contribution to 8 SDGs and 37 targets:

Note: References indicate the targets to which we contribute at RIMAC.

## Make cities and human settlements inclusive, safe, resilient and sustainable

There are many challenges to maintain cities being able to continue creating jobs and prosperity without putting pressure on land and resources, and at the same time more resistant to the effects of climate change.

Insurance companies are expected to **promote dialogue among local decision-makers, clients and the general public about protecting lives and improving disaster preparedness**, as well as planning for the financial consequences of a disaster.

At RIMAC we invest in developing scientific research and improving technological capacity through our **Monitoring and Prevention Center, a modern facility with advanced satellite technology that monitors the main meteorological and geological variables nationally and globally**. Furthermore, our partnership and work with TECHO Peru in human settlements focuses on prevention issues. Initiatives with the purpose of keeping all Peruvians alerted to natural phenomena that could affect their facilities.

Percentage contribution to global SDG 11 targets

Percentage contribution to Peru's indicators of SDG 11

## Target 11.1

By 2030, ensure access for all to adequate, safe and affordable housing and basic services, and upgrade slums.

## Target 11.3

By 2030 enhance inclusive and sustainable urbanization and capacities for participatory, integrated and sustainable human settlement planning and management in all countries.

## Target 11.7

By 2030, provide universal access to safe, inclusive and accessible, green and public spaces, particularly for women and children, older persons and persons with disabilities.

RIMAC Indicator

- **718** families benefited
- **4** impacted communities
- **224** employees from Lima who volunteered with TECHO Peru

### Volunteering in communities with TECHO Peru

Since 2017 we have a partnership with TECHO Peru for the organization of **volunteer events in Human Settlements** in Pachacamac, San Juan de Lurigancho and San Juan de Miraflores districts in Lima Metropolitan area.

During 2019, we undertook 4 volunteer initiatives in communities, with the aim of conducting activities focused on prevention culture, such as improving infrastructure, enabling evacuation routes, safe meeting places, installation of green gardens and holding workshops focused on health and disaster prevention.

RIMAC's Contribution

SDG Indicator

11.1.1  
Proportion of urban population living in slums, informal settlements or inadequate housing.

11.3.2  
Proportion of cities with a direct participation structure of civil society in urban planning and management that operate regularly and democratically.

11.7.1  
average share of the built-up area of cities that is open space for public use for all, by sex, age and persons with disabilities.

- Proportion of urban population living in slums, informal settlements or inadequate housing: 43.7%

Source: INEI – ENAHO (by its Spanish acronym)

Peru's Indicator

## Target 11.2

By 2030, provide access to safe, affordable, accessible and sustainable transport systems for all, improving road safety, notably by expanding public transport, with special attention to the needs of those in vulnerable situations, women, children, persons with disabilities and older persons.

RIMAC Indicator

- **+200** bicycle parking spaces at our Lima Metropolitan area facilities
- **220** employees commute on bike
- **155** employees enrolled in the RIMACBike system
- **216** employees use Movo's scooter per month
- **1** Sustainable Mobility Fair for employees

### Sustainable Mobility

During 2019 we launched the Sustainable Mobility Program that includes promoting shared, non-motorized trips (by bicycle or on foot), or by electric motor.

We have an **incentive platform** we use to periodically reward active users with parking spots, bicycle accessories, jackets, backpacks, among others.

Additionally, we continue **improving our offices' cycling infrastructure** by increasing the number of bicycle parking spaces and enabling more space for showers and lockers in all our facilities in the Lima Metropolitan area.

Furthermore, to make it easier for our employees' to charge their electric bicycles and scooters, we installed electrical outlets in the parking lot.

RIMAC's Contribution

SDG Indicator

11.2.1  
Proportion of population that has convenient access to public transport, by sex, age and persons with disabilities.

Unavailable.

Peru's Indicator

## Target 11.4

Strengthen efforts to protect and safeguard the world's cultural and natural heritage.

 <p>RIMAC Indicator</p>	<ul style="list-style-type: none"> <li>• <b>100%</b> of our physical policies are carbon neutral</li> </ul>	<p><b>Carbon neutral physical policies</b></p> <p>We continue to offset 100% of the Greenhouse gas (GHG) emissions produced during the printing and distribution process of our physical policies, through the purchase of carbon credits from the “Madre de Dios Amazon REDD Project”. A Sustainable Forest Development Project that avoids deforestation in 100,000 hectares of rainforest in Tahuamanu, Madre de Dios.</p>	 <p>RIMAC's Contribution</p>
 <p>SDG Indicator</p>	<p>11.4.1 Total expenditure (public and private) per capita spent on the preservation, protection and conservation of all cultural and natural heritage.</p>		
<p>Unavailable.</p>		 <p>Peru's Indicator</p>	

## Target 11.5

By 2030, significantly reduce the number of deaths and the number of people affected and substantially decrease the direct economic losses relative to global gross domestic product caused by disasters, including water-related disasters, with a focus on protecting the poor and people in vulnerable situations.

RIMAC Indicator

- **+14,000** users
- **395** companies in the Center's communication system
- **52** nowcast weather bulletins
- **105** forecast weather bulletins
- Regarding the occurrences due to rains and floods, from 2018 to 2019 there was a reduction of **USD 392,000** in companies evaluated in that time frame.

### Nature Monitoring and Risk Prevention Center

At RIMAC we seek to position ourselves as leaders in prevention culture, thus we provide free services to our **Multi-Risk Policy** insured clients, to **prevent accidents and natural disasters**.

As part of these initiatives we have a Nature Monitoring and Risk Prevention Center, as one of our prevention tools to forecast meteorological events to enable our clients to take necessary measures and prevent negative impacts on their businesses.

These services are intended to the general population, business clients and brokers.

RIMAC's Contribution

SDG Indicator

- 11.5.1  
Number of deaths, missing persons and directly affected persons attributed to disasters per 100,000 population.
- 11.5.2  
Direct economic loss in relation to global GDP, damage to critical infrastructure and number of disruptions to basic services, attributed to disasters.

- Number of deaths, missing persons and directly affected persons attributed to disasters: 1,114,281

Source: INDECI (by its Spanish acronym)

Peru's Indicator

## Target 11.6

By 2030, reduce the adverse per capita environmental impact of cities, including by paying special attention to air quality and municipal and other waste management.

RIMAC Indicator

### Recycled waste 2019:

- Paper: **16,965.96 kg**
- Plastic: **534.50 kg**

### Solid Waste Management

Under a circular economy approach and following the ISO 14001: 2015 guidelines, during 2019 we reinforced the deployment of our **Strategic Solid Waste Management Plan** at our headquarters in Lima, promoting segregation and reuse of the solid waste we generate as a company.

RIMAC's Contribution

This year we had constant communication and an awareness campaign in favor of segregation of solid waste addressed to our employees. We removed individual bins from our Lima offices and installed segregation stations. This work was complemented by activations and other awareness efforts towards our collaborators.

SDG Indicator

11.6.1 proportion of urban solid waste regularly collected and with adequate final discharge out of total urban solid waste generated, by cities.

Unavailable.

Peru's Indicator

## Ensure healthy lives and promote well-being for all at all ages

To achieve sustainable development, it is **essential to guarantee a healthy life and promote well-being for all at any age**. Significant progress has been achieved in Peru in increasing life expectancy and reducing some of the most common causes of death related to infant and maternal mortality<sup>1</sup>.

**At RIMAC our focal point is to promote a prevention culture among our clients, society and our suppliers.** We are not only interested in selling insurance, we are interested in building a relationship of trust with people. This means taking care of them and their families, enabling them to grow together in a peaceful environment.

**“Cuídate”<sup>2</sup> is our free and voluntary access health program aimed at people with chronic diseases and health insurance with our company.** The “Estar bien”<sup>3</sup> web platform seeks to inspire and motivate people pursuing a healthy lifestyle, through relevant and useful content they can apply in their daily lives.

Percentage contribution to global SDG 3 targets

<sup>2</sup> "Take care of yourself"

<sup>3</sup> "Being well"

# 3 GOOD HEALTH AND WELL-BEING

## Target 3.1

By 2030, reduce the global maternal mortality ratio to less than 70 per 100,000 live births. In addition, all countries should reduce the maternal mortality ratio to less than 140 per 100,000 live births.

## Target 3.2

By 2030, end preventable deaths of newborns and children under 5 years of age, with all countries aiming to reduce neonatal mortality to at least as low as 12 per 1,000 live births and under-5 mortality to at least as low as 25 per 1,000 live births.

 <p>RIMAC Indicator</p>	<p><b>Insured pregnant women</b></p> <ul style="list-style-type: none"><li>• <b>15,807</b> pregnant women cared for under the Maternity benefit</li></ul> <p><b>Insured girls and boys</b></p> <ul style="list-style-type: none"><li>• <b>1,617</b> girls and boys cared for through the Control Niño Sano (healthy child control) insurance</li></ul>	<p><b>Insured pregnant women</b></p> <p>15,807 of our affiliates are pregnant women, who are provided with the necessary care to help reduce the country's maternal mortality rate.</p> <p><b>Insured girls and boys</b></p> <p>At RIMAC we contribute to the prevention and reduction of diseases in children under one year of age through the Control Niño Sano program (healthy child control), which includes a <b>free monthly pediatric evaluation during the child's first year of life.</b></p>	 <p>RIMAC's Contribution</p>
 <p>SDG Indicator</p>	<p>3.1.1 Maternal mortality ratio. 3.2.1 Under-5 mortality rate. 3.2.2 Neonatal mortality rate.</p>	<ul style="list-style-type: none"><li>• Maternal mortality rate per 100,000 live births: 93 in 2004-2010 period</li><li>• Under-5 mortality rate per 1,000 live births: 19 in 2017/2018 period</li><li>• Neonatal mortality rate per 1,000 live births: 10 in 2017/2018 period</li></ul> <p>Source: INEI – ENDES (by its Spanish acronym)</p>	 <p>Peru's Indicator</p>

## Target 3.3

By 2030, end the epidemics of AIDS, tuberculosis, malaria and neglected tropical diseases and combat hepatitis, water-borne diseases and other communicable diseases.

RIMAC  
Indicator

- **35,780** vaccines administered to **18,769** affiliated girls and boys between 0 y 4 years old
- **934** vaccines administered to 807 affiliated adults

SDG  
Indicator

3.3.4  
Hepatitis B incidence per 100,000 population.

RIMAC's  
Contribution

### Vaccines and disease prevention

The care services provided in all of our health products **prioritize activities promoting healthy lifestyles and disease prevention** with the intention of improving the quality of life of our insured population.

In the case of vaccine-preventable diseases, **we offer our affiliates the Ministry of Health's National Immunization Scheme, with the purpose of protecting them** against polio, hepatitis B, meningitis due to Haemophylus type B, rotavirus, diphtheria, tetanus, whooping cough, measles, mumps, rubella, pneumonia, influenza and chicken pox.

Peru's  
Indicator

- Hepatitis B incidence per 100,000 population: 5

Source: INEI 2018

## Target 3.4

By 2030, reduce by one third premature mortality from non-communicable diseases through prevention and treatment and promote mental health and well-being.

RIMAC Indicator

### Cuídate Program

- **20,206** affiliated to the Cúdate Program, at the end of 2019
- **82%** of enrolled patients with lower hospitalization rates and emergency care

### Desenróllate (unroll) Challenge

- **603** employees of RIMAC's Corporate clients enrolled in the Desenróllate Challenge Program
- **3.4 kg** of average weight loss from the Desenróllate Challenge Program

### Blood Donation

- **329** units of blood collected for **987** patients of the National Institute of Neoplastic Diseases (INEN by its Spanish acronym) benefited
- **1,035** girls and boys benefited
- **622** volunteers

SDG Indicator

### 3.4.1

Mortality rate attributed to cardiovascular disease, cancer, diabetes or chronic respiratory disease.

### Cuídate Program

Cuídate is a **free and voluntary access health program for patients with chronic diseases** that enables them to empowered themselves regarding their disease, to receive adequate medication, timely multidisciplinary care and education about their diagnoses, to be able to control the disease and avoid complications in the future. In 2019, we achieved a lower hospitalization rates and emergency care for 82% of enrolled patients, improving their quality of life.

### Desenróllate Challenge

**We seek to reduce the incidence of chronic diseases in order for Peruvians to live longer and better by reducing overweight and obesity rates.** In partnership with our corporate client Backus, we deployed the program for 10 weeks and as a result, 7% of affiliates with Diabetes risk reduced the possibility of having the disease, if they continue with the change in their lifestyle.

### Blood Donation

**We held 6 blood donation campaigns in our Lima offices and 6 in coordination with different districts** such as Surquillo, La Victoria, San Isidro, Manchay and Lima Cercado. In the latter with the participation of the Congress of the Republic, and we were recognized by them, National Institute of Child Health of San Borja, and Edgardo Rebagliati Martins National Hospital.

RIMAC's Contribution

- Mortality rate attributed to cardiovascular disease, cancer, diabetes or chronic respiratory disease (total percentage of deaths): 51.8%

Source: MINSa (by its Spanish acronym)

Peru's Indicator

## Target 3.6

By 2020, halve the number of global deaths and injuries from road traffic accidents.

RIMAC Indicator

### Yo Me Cuido Program

- **20** Educational Institutions in Lima Metropolitan area included the Yo Me Cuido Program in their curriculum during 2019
- **216** Educational Institutions positively impacted since 2013
- **9%** trained teachers who improved their knowledge on road safety issues
- **53%** trained students who improved their knowledge on road safety issues

### Yo Me Cuido Program

With the Yo Me Cuido (I take care of myself) Program **we seek to generate a prevention culture in the country's new generations.** This is possible due to the collaborative work with public and private institutions, as well as with non-governmental organizations, through educational interventions in the classroom throughout the school year and in digital media.

RIMAC's Contribution

SDG Indicator

3.6.1  
Death rate due to road traffic injuries.

One of our lines of work is road safety prevention, we contribute through seat belt use education, the correct way of crossing the road, giving the right of way to emergency vehicles, among others.

- Death rate due to road traffic injuries per 100 000 population: 8.2

Source: INEI

Peru's Indicator

## Target 3.7

By 2030, ensure universal access to sexual and reproductive health-care services, including for family planning, information and education, and the integration of reproductive health into national strategies and programmes.

 <p>RIMAC Indicator</p>	<ul style="list-style-type: none"> <li>• <b>800,674</b> women of reproductive age (15 - 49 years)</li> </ul> <p><b>First Peruvian digital wellness community “Estar Bien”</b></p> <ul style="list-style-type: none"> <li>• <b>4,000,000</b> people engaged by Facebook posts</li> <li>• <b>4,500,000</b> Facebook interactions</li> <li>• <b>910,000</b> Facebook followers</li> <li>• <b>800,000</b> Web users</li> </ul>	<p><b>First Peruvian digital wellness community “Estar Bien”</b></p> <p>Since 2015, the <b>digital wellness community “Estar Bien”</b> (Being Well), <b>promotes having a healthy lifestyle.</b></p> <p>Our content is relevant and useful for people’s daily lives and includes topics on family planning and contraceptive methods.</p>	 <p>RIMAC's Contribution</p>
 <p>SDG Indicator</p>	<p>3.7.1 Percentage of married women ages 15-49 years whose need for family planning is satisfied with modern methods of contraception.</p>		
<ul style="list-style-type: none"> <li>• Percentage of women of reproductive age (15 - 49 years) who practice family planning with modern methods of contraception: 55%</li> </ul> <p>Source: INEI - ENDES</p>		 <p>Peru's Indicator</p>	

## Target 3.8

Achieve universal health coverage, including financial risk protection, access to quality essential health-care services and access to safe, effective, quality and affordable essential medicines and vaccines for all.

RIMAC Indicator

- **More than 2 million** people insured
- **15,356** insured girls, boys and young people (up to 18 years old)
- **15,807** insured pregnant women
- **252,244** insured older adults (+60 years)
- **100%** insured employees
- **1,617** patients attended in 2019 with the personal accident insurance for children and youth

### Pakta

- **+700** Pakta insurance policies

### Inclusive insurance

At RIMAC we seek to be present in the lives of more Peruvians, giving them **easy access to products that meet their needs**, quickly and with simple communication.

**Pakta** is an inclusive insurance for people who do not have vehicle insurance, it was created at EPIC Lab, our innovation laboratory. **It is the first plan to replace a car in the event of total theft in the Peruvian market** and it allows the user to simply and quickly keep mobilizing within 48 hours, to continue their daily activities after having suffered the total theft of their car.

RIMAC's Contribution

SDG Indicator

### 3.8.1

Coverage of essential health services (defined as the average coverage of essential services based on tracer interventions that include reproductive, maternal, newborn and child health, infectious diseases, non-communicable diseases and service capacity and access, among the general and the most disadvantaged population).

### 3.8.2

Proportion of population with large household expenditures on health as a share of total household expenditure or income.

- Proportion of population with health insurance: 76.5%
- Proportion assigned of monthly per capita average expenditure for health: 8.4%

Source: INEI - ENAHO

Peru's Indicator

## Target 3.9

By 2030, substantially reduce the number of deaths and illnesses from hazardous chemicals and air, water and soil pollution and contamination.

RIMAC  
Indicator

- **145** families benefited from the implementation of Casas Calientes Limpias (Warm Clean Houses) in Puno
- **10** Casas Calientes Limpias (Warm Clean Houses) implemented during 2019 in Puno, with Kusimayo NGO

SDG  
Indicator

3.9.1  
Mortality rate attributed to household and ambient air pollution.

3.9.2  
Mortality rate attributed to unsafe water, sanitation, and lack of hygiene (water, sanitation and hygiene (WASH))

### Heat for Puno

Through the Calor para Puno (Warm Puno) volunteering, RIMAC employees have the opportunity of making an **economic donation and contribute with the implementation of Casas Calientes Limpias** (Warm Clean Houses), an initiative of Kusimayo NGO that reduces the contamination caused by open cooking stoves and their incidence in respiratory diseases. Through eco-friendly technologies, this initiative also manages to increase the temperature inside family homes by up to 10% in the districts of Lampa and Caminaca in Puno.

## Take urgent action to combat climate change and its impacts

Natural disasters, many of which are exacerbated by climate change and are increasing in frequency and intensity, hamper progress towards sustainable development.

As part of our environmental commitment, **at RIMAC we have been working to reduce natural disasters' risks with the first and only Monitoring and Prevention Center in Latin America**, whose objective is to inform clients and public organizations of natural phenomena and possible events that can affect its operations, as well as to perform specialized services to mitigate natural phenomena.

Moreover, since 2013 we measure our carbon footprint and offset 100% of the emissions produced by the generation and distribution of our insurance policies. As an initiative to reduce our carbon footprint, we have been promoting sustainable mobility among our employees. In 2019 we reinforced this work by launching a comprehensive program with incentives promoting shared, non-motorized and electric.

Percentage contribution to global SDG 13 targets

Percentage contribution to Peru's indicators of SDG 13

\*Our contribution to Peru's indicators is 100% because Peru has only developed one local indicator; according to INEI's Sustainable Development Goals' Tracking and Monitoring System, to date another indicator is under development, while the remaining five indicators are still pending.

## Target 13.1

Strengthen resilience and adaptive capacity to climate-related hazards and natural disasters in all countries.

RIMAC Indicator

- **+14,000** users
- **395** companies in the center's communication system
- **52** nowcast weather bulletins
- **105** forecast weather bulletins
- Regarding the occurrences due to rains and floods, from 2018 to 2019 there was a reduction of **USD 392,000** in companies evaluated in that time frame.

### Nature Monitoring and Risk Prevention Center

At RIMAC we seek to position ourselves as a leader in prevention culture, which is why we provide free services to our clients, focusing on preventing accidents and natural disasters.

As part of these initiatives, we have a Nature Monitoring and Risk Prevention Center, a pioneering initiative within the Latin American Insurance Market, as one of our prevention tools to forecast meteorological events to enable our clients to take necessary measures and prevent negative impacts on their businesses.

**Our Center makes general forecasts associated with meteorological conditions and also specialized forecasts through public reports.**

RIMAC's Contribution

SDG Indicator

13.1.1  
Number of deaths, missing persons and directly affected persons attributed to disasters per 100,000 population.

13.1.3  
Proportion of local governments that adopt and implement local disaster risk reduction strategies in line with national disaster risk reduction strategies.

- Number of deaths, missing persons and directly affected persons attributed to disasters (people): 1,114,281

Source: INDECI

Peru's Indicator

## Target 13.2

Integrate climate change measures into national policies, strategies and planning.

RIMAC Indicator

**2019 GHG emissions**

- Scope 1 Direct emissions: **541.39 tCO<sub>2</sub>eq**
- Scope 2 Indirect emissions: **811.74 tCO<sub>2</sub>eq**
- Scope 3 Indirect emissions: **4,665.39 tCO<sub>2</sub>eq**
- Total carbon footprint: **6,018.52 tCO<sub>2</sub>eq**

**Carbon neutral policies**

- **100%** offset of the emissions produced during the printing and distribution of our policies

SDG Indicator

13.2.1

Number of countries that have communicated the establishment or operationalization of an integrated policy/strategy/plan which increases their ability to adapt to the adverse impacts of climate change and foster climate resilience and low greenhouse gas emissions development.

**Carbon Footprint**

Since 2013, at RIMAC we calculate our carbon footprint, with the objective of **progressively reducing our environmental impact**.

From 2017 to 2019 we managed to reduce our footprint by 2,661 tCO<sub>2</sub>eq, which is equivalent to a **30.55% reduction**.

**Carbon neutral policies**

Since 2014, we have offset **100% of the Greenhouse gas (GHG) emissions produced during the printing and distribution process of our physical policies**, through the purchase of carbon credits from the “Madre de Dios Amazon REDD Project”. A Sustainable Forest Development Project that avoids deforestation in 100,000 hectares of rainforest in Tahuamanu, Madre de Dios.

## Promote inclusive and sustainable economic growth, employment and decent work for all

To achieve sustainable economic development, **societies must create the necessary conditions for people to access quality jobs, by stimulating the economy without harming the environment.** Moreover, there must be job opportunities for the entire working-age population with decent working conditions<sup>4</sup>.

The International Labor Organization (ILO) demonstrates that responsible practices in the workplace, such as innovations in workplace organization, continuous learning, good relations between employees and management, and respect for employees' rights are essential to increase productivity, while promoting decent work for all.

During 2019 at RIMAC we continued our transformation process incorporating an **agile operating model in our management**, with enabling components being redesigned such as career lines, employee performance management, strategic planning process and change management. This last component is key, considering that the real transformation lies with people and is reflected through their behaviors, ways of leading and with a new mindset. Additionally, we designed a workplace diversity program to promote inclusion.

Furthermore, we are committed to sustainable economic growth, as a result, **we are one of the first Insurance Companies to express the importance of incorporating ESG factors** (Environmental, Social and Corporate Governance) in the country. We are committed to promoting the Principles of Responsible Investment within the company and our peers in the industry.

Percentage contribution to global SDG 8 targets

Percentage contribution to Peru's indicators of SDG 8

<sup>4</sup> Source: INEI (by its Spanish acronym)

# 8 DECENT WORK AND ECONOMIC GROWTH

## Target 8.1

Sustain per capita economic growth in accordance with national circumstances and, in particular, at least 7 per cent gross domestic product growth per annum in the least developed countries

## Target 8.2

Achieve higher levels of economic productivity through diversification, technological upgrading and innovation, including through a focus on high-value added and labour-intensive sectors.

RIMAC Indicator

- As of 2019, for every S/ 1 RIMAC invests in its employees, **S/ 0.60** of income is generated
- By the end of 2019, RIMAC disbursed **S/ 43,534,000** in income taxes

### Annual growth

It is important to highlight that private insurance penetration in our country remains one of the lowest in the region, with just 1.9% of GDP. This represents a great opportunity to boost insurance, especially in emerging sectors and in new consumers such as millennials.

Our challenge is to **grow focused on creating new products, services, experiences and business models for our clients and unattended markets**; and thus guarantee the sustainability of our operations.

RIMAC's Contribution

SDG Indicator

- 8.1.1 Annual growth rate of real GDP per capita.
- 8.2.1 Annual growth rate of real GDP per employed person.

- Annual growth rate of real GDP per capita: 2.9%
- Annual growth rate of real GDP per employed person: 2.3%

Source: INEI 2018

Peru's Indicator

## Target 8.4

Improve progressively, through 2030, global resource efficiency in consumption and production and endeavour to decouple economic growth from environmental degradation, in accordance with the 10-Year Framework of Programmes on Sustainable Consumption and Production, with developed countries taking the lead.

RIMAC Indicator

- **109%** growth in digital
- **100%** carbon neutral physical policies

### Digitizing and reducing the use of paper

We are committed to **process and products digitization**, as well as the **education of our employees to achieve the eco-efficient use of resources**.

With the aim of increasing digital sales and reducing face-to-face, as well as the use of resources it entails, we launched 3 digital platforms: a public portal, personal customer portal and business portal.

RIMAC's Contribution

SDG Indicator

8.4.2 Domestic material consumption, domestic material consumption per capita, and domestic material consumption per GDP.

Unavailable.

Peru's Indicator

# 8 DECENT WORK AND ECONOMIC GROWTH

## Target 8.5

By 2030, achieve full and productive employment and decent work for all women and men, including for young people and persons with disabilities, and equal pay for work of equal value.

RIMAC  
Indicator

### Formal employment

- **3,185** formal employees (payroll and interns)
- **1,927** female employees
- **1,258** male employees
- **3** employees with disabilities

### Generating formal employment

We provide formal employment to 3,185 employees, 60% being women and 40% men, contributing to the decrease of the unemployment rate.

In 2019, we recruited 1,834 new employees, **contributing to formal jobs and reducing unemployment.** Through our Talent Factory program, we seek to promote professional development by allowing job applications in Breca Group companies, promoting intra-group movements.

Moreover, with our Sales Force Talent program we seek to implement Data & Analytics tools to increase the efficiency and effectiveness of talent recruitment through a simple digital platform, focused on the experience of the candidate.

RIMAC's  
Contribution

SDG  
Indicator

### 8.5.2

Unemployment rate, by sex, age and persons with disabilities.

- Proportion of informal employment in the non-agricultural sector:: 64.8%
- Average hourly income of male and female employees: S/ 7.1
- Unemployment rate in urban area: 4.8%
- Men: 4.3%
- Women: 5.4%
- With disability: 4.3%
- Without disability: 4.8%

Source: INEI – ENAHO 2018

Peru's  
Indicator

## Target 8.7

Take immediate and effective measures to eradicate forced labour, end modern slavery and human trafficking and secure the prohibition and elimination of the worst forms of child labour, including recruitment and use of child soldiers, and by 2025 end child labour in all its forms.

RIMAC  
Indicator

- **0%** of children and youth from 5 to 17 years of age in labor force participation
- **10** years adhered to Global Compact

### Global Compact

Since 2011 our business strategy is aligned with the Global Compact, a voluntary initiative promoted by the United Nations. Thus, **by adhering to its 10 principles**, we have not identified incidents of child labor, young workers exposed to hazardous or forced labor within our operations, or by our suppliers. However, in order to better monitor compliance with these standards by our suppliers, we have an homologation process that assesses compliance with these rights.

RIMAC's  
Contribution

SDG  
Indicator

8.7.1  
Proportion and number of children aged 5–17 years engaged in child labour, by sex and age.

- Proportion and number of children aged 5–17 years engaged in economic activity: 26.1%

Source: INEI – ENAHO 2018

Peru's  
Indicator

## Target 8.8

Protect labour rights and promote safe and secure working environments for all workers, including migrant workers, in particular women migrants, and those in precarious employment.

RIMAC Indicator

- **97%** of employees completed 4 OSH trainings focused on psychosocial factors, visual fatigue, first aid and prevention of occupational risks in the office
- **4** occupational accidents during 2019
- **2%** of employees were part of the unión in 2019

At RIMAC we aim to promote a safe and healthy work environment. To achieve this, all employees are familiar with our **Occupational Safety and Health (OSH) Policy**, the Internal Regulations for Occupational Safety and Health and comply with the OSH guidelines.

Regarding our business, we generate value for our clients affiliated to the **Complementary Risk Work Insurance (SCTR** by its Spanish acronym) by advising and supporting the implementation, maintenance and improvement of occupational health and safety management in their organizations. We promote the reduction of accidents risks at work and professional diseases.

RIMAC's Contribution

SDG Indicator

- 8.8.1  
Frequency rates of fatal and non-fatal occupational injuries, by sex and migrant status.
- 8.8.2  
Level of national compliance with labour right (freedom of association and collective bargaining) based on International Labour Organization (ILO) textual sources and national legislation.

Peru's Indicator

## Target 8.10

Strengthen the capacity of domestic financial institutions to encourage and expand access to banking, insurance and financial services for all.

RIMAC Indicator

- Presence in **19 ciudades** nationwide
- **3** new digital platforms during 2019
- **1,144** employees in sales force nationwide
- Implementation of the financial education program Finanzas en Mi Colegio (finances at my school) through APESEG:
  - Nealy **100,000** students positively impacted.
  - **+1,000** trained teachers,

### Presence in the country

In 2019, we launched 3 digital platforms to extend our reach to our clients:

- Public portal
- Customer portal (people)
- Business portal

Additionally, we have a presence in 19 cities in the following provinces: Arequipa, Ayacucho, Cajamarca, Chiclayo, Chimbote, Cusco, Huacho, Huancayo, Ica, Ilo, Iquitos, Lima, Piura, Pucallpa, Puno, Tacna, Tarapoto, Trujillo, and Tumbes.

RIMAC's Contribution

At RIMAC we contribute to strengthening the capacity of national financial institutions through the Peruvian Association of Insurance Companies (APESEG, by its Spanish acronym), through the specialized Insurance Forum "Insurance Day" with the participation of the most important stakeholders in the sector and their authorities.

SDG Indicator

8.10.1  
a) Number of commercial bank branches per 100,000 adults and (b) number of automated teller machines (ATMs) per 100,000 adults.

- Number of commercial bank branches per 100,000 adults (+15 years)
  - Commercial banks: 11
  - Automated taller machines (ATMs): 99
  - Co-responsible ATMs: 688

## Ensure inclusive and quality education for all and promote lifelong learning

**Quality education is the basis for improving people's lives and for sustainable development.** In Peru important progress has been made regarding quality education, with achievements in mathematical reasoning and reading comprehension, improvement in access to education to all, and the increase in school enrollment rates, but much remains to be done<sup>5</sup>.

Thus, **at RIMAC we recognize the global and local challenge of creating inclusive and quality education to improve people's well-being**, especially on issues related to prevention culture and risk management and positioning them as a priority for new generations.

To achieve the goal, **we work in partnership with the public sector, such as the Ministry of Education, an entity that has recognized us for the second year as "Allies for Education"**. We also work in close collaboration with allies from civil society and the private sector.

Percentage contribution to global SDG 4 targets

<sup>5</sup> Source: INEI (by its Spanish acronym)

## Target 4.1

By 2030, ensure that all girls and boys complete free, equitable and quality primary and secondary education leading to relevant and effective learning outcomes.

## Target 4.2

By 2030, ensure that all girls and boys have access to quality early childhood development, care and pre-primary education so that they are ready for primary education.

RIMAC Indicator

- **4,790** students engaged in the Yo Me Cuido Program during 2019
- **53,704** students engaged in the Yo Me Cuido Program since 2013

SDG Indicator

4.1.1  
Proportion of children and young people (a) in grades 2/3; (b) at the end of primary; and (c) at the end of lower secondary achieving at least a minimum proficiency level in (i) reading and (ii) mathematics, by sex.

4.2.1  
Proportion of children under 5 years of age who are developmentally on track in health, learning and psychosocial well-being, by sex.

### Yo Me Cuido Program

The Yo Me Cuido (I take care of myself) program contributed to the education of girls and boys of initial, first and second grade of elementary school, at the beginning of the program only 6% of students were at the satisfactory level, and at the end, 58% were in that level. This means that **52% of students have improved in their knowledge of prevention culture and comprehensive health.**

The program seeks to form a prevention culture, through educational intervention in the classroom that, between 2016 and 2018, included the component of comprehension and reading fluency, through the collection of the stories "Learning to take care of myself".

RIMAC's Contribution

- Proportion of Elementary second grade students with satisfactory level in Reading comprehension: 46.4%

Peru's Indicator

## Target 4.3

By 2030, ensure equal access for all women and men to affordable and quality technical, vocational and tertiary education, including university.

RIMAC Indicator

- **100%** trained employees

Main training figures in RIMAC Seguros and RIMAC EPS:

- **3,318** employees trained in Money Laundering
- **3,353** employees trained in Operational Risk
- **3,364** employees trained in Business Continuity
- **3,342** employees trained in Information Security
- **108** employees trained in Team Member Soft Skills
- **30** employees trained in Soft Skills for Agile Teams
- **65** employees trained in Effective Communication
- **154** hours of training for recently graduated university students through the Trainee Program

### Annual training program for our employees

At RIMAC we have an annual training plan, prepared based on an internal process, which allows us to identify the main barriers to optimal performance in our areas. Training programs include courses such as:

1. **Regulatory:** aimed at the entire company
2. **Individuals:** addressed to certain employees for training needs that are not present in the company
3. **Collective:** training programs taught by internal or external facilitators to a group of employees

Additionally, in 2019 we undertook our second **Scrum Master Academy**, a two-week program dedicated to enhancing the knowledge of our employees and developing their growth in agile methodologies.

RIMAC's Contribution

SDG Indicator

#### 4.3.1

Participation rate of youth and adults in formal and non-formal education and training in the previous 12 months, by sex.

- Higher education attendance rate of the population aged 17-24: 28.8%

## Target 4.7

By 2030, ensure that all learners acquire the knowledge and skills needed to promote sustainable development, including, among others, through education for sustainable development and sustainable lifestyles, human rights, gender equality, promotion of a culture of peace and non-violence, global citizenship and appreciation of cultural diversity and of culture's contribution to sustainable development.

RIMAC Indicator

- **4,790** students engaged in the Yo Me Cuido Program
- **9,580** parents trained in the Yo Me Cuido Program
- **181** initial, first and second primary school teachers trained in the Yo Me Cuido Program
- **750** girls and boys from the Luis Armando Cabello Educational Institution, Cercado de Lima benefited by the "Save Bonds"
- **3,330** employees trained in Healthy Lifestyle
- **3,298** employees trained in Sustainability
- **4,000,000** people engaged by Facebook posts from the digital wellness community Estar Bien
- **910,000** followers of the digital community Estar Bien

### Education for sustainable development

By means of our **Yo Me Cuido Program**, teachers, parents and students are taught the importance of a prevention culture. In the "Health and nutrition" component, we seek to develop a healthy lifestyle, as well as with the environment, that is why we have developed the story "Learning to take care of the environment" that has been delivered to the 20 Educational Institutions participating in the program.

Moreover, we contribute with the **Asociación para la Niñez y su Ambiente** (ANIA by its Spanish acronym, association for children and their environment) NGO that highlights the value of green areas and natural spaces for the students of the I.E. Luis Armando Cabello in Lima Cercado.

Additionally, we contribute with the **training** of 100% of our employees' **sustainability and healthy lifestyles** that includes the sustainable use of resources.

Furthermore, through our digital wellness community **Estar Bien**, we provide informative material and good practices on topics focused on the environment, sexual and reproductive education and healthy lifestyles.

RIMAC's Contribution

Peru's Indicator

## Ensure sustainable consumption and production patterns

Sustainable consumption and production promote resource and energy efficiency, sustainable infrastructures, facilitate access to basic services, green and decent jobs, and a better quality of life for all. Its implementation helps to achieve general development plans, reduce future economic, environmental and social costs, increase economic competitiveness and reduce poverty<sup>6</sup>.

We believe in the circular economy model, as such **during 2019 at RIMAC we reinforced the deployment of our Strategic Solid Waste Management Plan** at our Lima offices, promoting segregation and reuse of the solid waste we produce.

Additionally, it is noteworthy that **our Torre del Parque offices, located in San Isidro district, Lima, obtained LEED (Leadership in Energy & Environmental Design) Gold level certification**. A sustainable building certification system, developed by the US Green Building Council.

<p>Unavailable.</p>			 <p>Peru's Indicator</p>

# 1 NO POVERTY

## End poverty in all its forms everywhere

In Peru, extreme poverty rates have been reducing considerably up to 2.8% in 2018. Notwithstanding this is a remarkable achievement, **900,000 Peruvians still live in extreme poverty**.

Poverty goes beyond lack of income and resources to guarantee sustainable livelihoods. Its expressions include hunger and malnutrition, limited access to education and other basic services, social discrimination and exclusion, and lack of involvement in decision-making. **Economic growth must be inclusive with the purpose of creating sustainable jobs and promoting equality<sup>7</sup>.**

At RIMAC we acknowledge that **one of the challenges to end poverty in our country is to promote people's resilience** in conditions of vulnerability to extreme weather-related phenomena and other economic, social and environmental disasters. For this reason, one of the pillars of our sustainability strategy is health and disaster prevention, and we consider it relevant to report on our contribution to achieving the goals, even though our contribution is less than 35%, the limit we defined for reporting our contributions.

Percentage contribution to global SDG 1 targets

Percentage contribution to Peru's indicators of SDG 1

<sup>7</sup> Source: INEI

# 1 NO POVERTY

## Target 1.3

Implement nationally appropriate social protection systems and measures for all, including floors, and by 2030 achieve substantial coverage of the poor and the vulnerable.

RIMAC Indicator

- **2,153,873** people insured
- **15,356** insured girls, boys and young people (up to 18 years old)
- **15,807** insured pregnant women
- **252,244** insured older adults (+60 years)
- **100%** employees with pension insurance, health providers and life insurance

At RIMAC we seek to be present in the lives of more Peruvians, giving them easy access to products that meet their needs, quickly and with simple communication.

### "People first"

Our most important principle, which means that our employees are the center of our decisions and actions. **Our business is not about insurance and health, but about people who are at the service of other people**, because we accompany them at any time, even in the most difficult moments.

Thus, **13% of our affiliates belong to vulnerable groups** such as girls, boys, young people, older adults and pregnant women.

RIMAC's Contribution

SDG Indicator

### 1.3.1

Proportion of population covered by social protection floors/systems, by sex, distinguishing children, unemployed persons, older persons, persons with disabilities, pregnant women, newborns, work-injury victims and the poor and the vulnerable.

- Proportion of population aged 14 and over with pension insurance: 30.1%

Source: INEI 2018

Peru's Indicator

## Target 1.5

By 2030, build the resilience of the poor and those in vulnerable situations and reduce their exposure and vulnerability to climate-related extreme events and other economic, social and environmental shocks and disasters.

RIMAC Indicator

### Disaster prevention in vulnerable communities

- **718** families in human settlements engaged in workshops focused on prevention issues

#### Yo Me Cuido Program

- **20** Educational Institutions of socio-economic levels B and C of Lima Metropolitan area that include the program in their curriculum
- **54%** of the trained students improved their knowledge on emergencies and disasters issues
- **45%** of the trained teachers improved their knowledge on emergencies and disasters issues

### Disaster prevention in vulnerable communities

Through our partnership with TECHO Peru we contribute by **offering workshops to people in Human Settlements of Pachacamac, San Juan de Lurigancho and San Juan de Miraflores, with a special focus on prevention issues.**

#### Yo Me Cuido Program

Through the Yo Me Cuido Program, in 2019 we gave 6,707 stories on topics such as "Learning to take care of myself in emergencies and disasters", "Learning to take care of myself and prevent", "Learning to take care of burns", among others to girls and boys of the initial, first and second grade of Primary in 20 Educational Institutions of socio-economic levels B and C in Lima Metropolitan area.

RIMAC's Contribution

SDG Indicator

#### 1.5.1

Number of deaths, missing persons and directly affected persons attributed to disasters.

#### 1.5.3

Number of countries that adopt and implement national disaster risk reduction strategies in line with the Sendai Framework for Disaster Risk Reduction 2015–2030.

#### 1.5.4

Proportion of local governments that adopt and implement local disaster risk reduction strategies in line with national disaster risk reduction strategies.

- 1,114,281 deaths, missing persons and/or directly affected persons attributed to disasters.

Source: INEI 2018

Peru's Indicator

## Revitalize the global partnership for sustainable development

Partnerships instead of being a challenge, are a source of innovative solutions and a form of comprehensive, cross-sectional work. They can be aligned with the plans and indicators of the sustainability strategy of an organization, since they raise the possibility of optimizing and maximizing impacts that cannot be achieved by working individually.

At RIMAC we use partnerships as a working mechanism to expand the impact of our sustainability strategy, with public, private and non-profit institutions.

Thus, as of 2017 we are **members of the Board of Directors of the Responsible Investment Program (PIR, by its Spanish acronym) in Peru**, the country's main driver of the United Nations' Principles of Responsible Investment (PRI). Additionally, since then we have been involved in the Working Group on Minimum Investment ESG (Environmental, Social and Corporate Governance) Indicators, where we **contribute to the development of a responsible investment policy model** for PIR members.

# 18

Partnerships with public, private and non-profit organizations

## Target 17.7

Promote the development, transfer, dissemination and diffusion of environmentally sound technologies to developing countries on favorable terms, including on concessional and preferential terms, as mutually agreed.

RIMAC Indicator

- **18** partnerships with organizations during 2019

SDG Indicator

17.17.1

Total amount of approved funding for developing countries to promote the development, transfer, dissemination and diffusion of environmentally sound technologies.

RIMAC's Contribution

### Allies for Education

One of the partnerships with the greatest impact has been the one between RIMAC and the Ministry of Education to strengthen prevention culture and education in the country through the Yo Me Cuido Program.

During 2019, we continue to aligned our contribution with the priorities of the education sector and we broaden the scope of the inter-institutional cooperation agreement, focusing on the guidelines for “Learning for Life” and “Welcoming and Safe Schools”.

**For the 2nd consecutive year, the Ministry of Education has recognized the Yo Me Cuido Program as an important “Ally for Education” for the country.**

Unavailable.

Peru's Indicator

\*By partnerships we mean monetary investment, resources or capacities to projects developed in affiliation with other organizations working to achieve a common goal.
