

This information is an integral part of the 2025 Carbon Footprint Report- RIMAC Seguros

ICONTEC confirms, based on the provisions of standard ISO 14064-3:2019:

1. The objective of the activity was to verify the quantification of GHG emissions of the organization RIMAC SEGUROS Y REASEGUROS, for the facilities covered in: see annex of facilities covered in the inventory.
2. The verification criteria were applied in accordance with the provisions of standard ISO 14064-3:2019, and the requirements established in standard ISO 14064-1:2018 are met.
3. The scope of the verification is limited to the information and data corresponding to the organization RIMAC SEGUROS Y REASEGUROS, located at Cal. El Parque Nro. 149 Int. Pis2, Urb. Jardín, San Isidro, Lima, Lima, Peru, during 01/01/2025 to 31/12/2025, where the data for the year 2023 is used as the base year.
4. The level of assurance is Reasonable for the information reported and verified in this declaration.
5. The verification performed by ICONTEC was based on information described in the 2025 Carbon Footprint Report — RIMAC Seguros of the organization, issued in the year 2025, from which the sources, GHG types, and other relevant aspects were taken. Attached to this declaration is the aforementioned report, in whose results section 6 the GHG report performed by the organization is indicated.
6. The data and information provided by the organization to the verification team are of a historical nature and, together with the evidence gathered during the on-site verification, supply the inputs required to generate the declaration of the GHG quantification.
7. The knowledge evidenced regarding the requirements and guidelines established for the calculation of the GHG inventory by the responsible personnel of the organization supports the information described in the report and the opinion issued by ICONTEC in this declaration.
8. During the greenhouse gas report verification exercise performed by ICONTEC, a field visit took place at the facilities covered by the scope of the verification, where the verification team carried out a review of the complete flow of the activities reported in the organization's GHG report.
9. The verification report of the organization's GHG inventory reports concludes an Unmodified opinion with the requirements established in standard ISO 14064-1. Thanks to the activities carried out by the verification team according to the verification plan, the inputs required to generate this GHG declaration were obtained, within the limit of the report of the organization RIMAC SEGUROS Y REASEGUROS.

Facilities covered by the report

Facilities Covered in the report

Among the facilities covered by the organization's GHG inventory report are the following facilities for the reported year (2025):

Torre del Parque 1: Calle las Begonias Nro. 540, San Isidro.

Torre del Parque 2: Calle las Begonias Nro. 650, San Isidro.

Wilson: Avenida Garcilaso de la Vega Nro. 955, Cercado de Lima

Arequipa: Pasaje Belén Nro. 103, Arequipa.

Trujillo: Calle las Begonias Nro. 304, Trujillo.

Cusco: Calle Humberto Vidal Unda G-5, Cusco.

Piura: Jirón Libertad Nro. 450, Piura.

Chiclayo: Av. Salaverry Nro. 560, Chiclayo.

Note: within the GHG Inventory verification, it was identified that the sites are within the Organizational limit, and the corresponding emissions were identified for the construction of the inventory. All data were reviewed, reaching a reasonable assurance level of 95% at their respective sites.

Sustainability Indicators

Scope 1	463,73 TnCO2e
Scope 2	825,77 TnCO2e
Scope 3	1.885,27 TnCO2e
Energy Consumption	4.756.373.49 KWh
Water Consumption	34.279,79 m ³
Solid Waste Generation	65.503,37 kg
